

ANH DANG

.NET Technical Lead

Intermediate/Upper-Intermediate/Advanced in English

*Bachelor's degree in Information Technology from Hanoi University
of Science and Technology*

Highly accomplished Technical Leader and Certified Scrum Master with over 6 years of experience, adept at driving successful project delivery within agile environments. Proven ability to cultivate strong client relationships, mentor high-performing teams, and leverage robust problem-solving skills to navigate complex technical challenges. Expertise includes applying AI to build financial services and implementing Shift-Left methodologies for enhanced software development.

- Led and coached cross-functional teams, ensuring successful project delivery through effective Scrum methodologies.
- Partnered with clients to define requirements and align technical solutions with business objectives.
- Applied strong analytical skills to diagnose and resolve complex technical issues, implementing innovative solutions.
- Facilitated knowledge sharing and fostered transparent communication within teams.
- Implemented refined agile processes and proactively addressed potential project roadblocks for efficient delivery.

- **JavaScript Frameworks:** Angular 4.0, Vue.js, React.js

Database: PostgreSQL, SQL, MongoDB

IDE, Build & Programming Tools: Visual Studio, JetBrains (IntelliJ IDEA, Rider, etc.), JIRA, Confluence, Git, Docker, SVN, Postman

Processes, Methodologies: Agile Scrum, Shift-Left, Kanban, Design Patterns

Working Experience

Technical Leader – *CBTW APAC, Ho Chi Minh City (May 2022 - present)*

- Leading, supporting, and planning the work of multiple engineering teams.
- Providing high-quality solutions and SAD (Software Architecture Document) documentation for technical challenges from clients and team members.
- Engaging with clients and proposing solutions during the pre-sale process.
- Providing production support.

Key Achievements:

- Applied Microservices and AI (Chat GPT-4o, Google Gemini) to build an end-to-end product supporting lawyers in Family Law and Estate domains.
- Successfully applied Shift-Left methodologies, helping the team improve product quality.
- Successfully led a "lift shift" team and migrated 30 products from .NET Framework to .NET Core 8.0.
- Managed and integrated products into the company workflow, utilizing AI to set up workflows using existing services.
- Nominated as "MVP People in BOT" twice for significant contributions.

Technical Leader – *NashTech, Ho Chi Minh City (Feb 2018 - May 2022)*

- Leading, supporting, and planning the work of multiple engineering teams.
- Providing high-quality solutions and SAD (Software Architecture Document) documentation for technical challenges from clients and team members.
- Acting as Project Management to support Project Managers.

Key Achievements:

- Microservices and Neo4j have applied to build a product supporting credit management and debt collection.
- Successfully provided services for 5 different countries, including: UK, Germany, Australia, Norway, and Sweden.

- Successfully managed the team to adapt and perform well despite changes in working methods during the COVID-19 pandemic.
- Successfully applied Microservices and Microsoft Chatbot to build a legal support product for bike accidents and personal injury.
- Nominated once on NashTech's nominated list.

Senior Software Engineer – *NashTech, Ho Chi Minh City (Mar 2015 - Dec 2017)*

- Wrote, reviewed, and maintained code in compliance with established coding quality standards.
- Self-trained on new technologies to stay current with industry trends.
- Coached junior team members, fostering their professional development.
- Implemented customer's processes strictly when requested, ensuring compliance.
- Documented detailed designs as part of the design team.

Key Achievements:

- Successfully managed a dedicated team, consistently delivering outstanding performance for 2 years.
- Mentored and onboarded 4 interns, accelerating their productivity and integration into the team.
- Played a key role in 3 projects, earning trust from Line Managers and Project Managers.
- Nominated for Team Leader after 2 years of serving as a mentor in a dedicated team.
