Kavya Hosamane Jayanna

Full Stack AI Engineer | RAG · LLM · .NET · React · AWS | MS CS @
Binghamton '26
Greater Binghamton

Summary

Graduated with a Master's degree in Computer Science from Binghamton University and a Bachelor's degree in Electronics and Communication from MVJ College of Engineering, this professional is AWS Certified Cloud Practitioner with expertise in Amazon EC2, AWS Identity and Access Management (IAM), and Git.

At Happiest Minds Technologies, contributed as a Senior Software Engineer, focusing on developing innovative solutions and leveraging cloud technologies. Dedicated to creating scalable systems while ensuring effective collaboration within teams to address complex challenges.

Experience

Neuro20 Technologies

Product Design & Data Analytics Intern
August 2026 - Present (2 months)

Binghamton University School of Management

9 months

Research Assistant - Generative AI & Multimodal Research

May 2026 - Present (5 months)

Binghamton, NY

- Building a Retrieval-Augmented Generation (RAG) chatbot enhanced with a knowledge graph, evaluating retrieval and response strategies across 4 experimental conditions using ChromaDB as the vector store for chunk retrieval

Research Assistant

January 2026 - May 2026 (5 months)

- Built an experimental chatbot system for educational research, developing a chat UI frontend integrated with a GPT API backend, implementing A/B

testing for system prompt variations, conversation logging to a database, and Qualtrics survey integration for data collection

- Reproduced an attention-based deep learning model for multimodal neuroimaging fusion, aligning structural MRI (ICA-derived gray matter components) with dynamic functional connectivity states from resting-state fMRI to study brain structure-function relationships in schizophrenia

Happiest Minds Technologies

2 years 5 months

Senior Software Engineer

August 2024 - December 2024 (5 months)

Software Engineer

August 2022 - August 2024 (2 years 1 month)

Karnataka, India

Education

Thomas J. Watson College of Engineering and Applied Science,
Binghamton University

Master's degree, Computer Science · (January 2025)

MVJ College of Engineering, Bangalore, India

Bachelor of Engineering - BE, Electronics and communication · (2018 - 2022)
