Max Hartvigsen

Senior Maritime Executive | Operations & Commercial Leadership | Offshore & Subsea | Maritime Technology | Autonomous & Uncrewed Systems | APAC
Singapore, Singapore

Summary

I am a maritime executive and mariner at heart, with more than 25 years of experience spanning offshore vessel operations, subsea construction, commercial and fleet management, shipbroking and maritime technology.Most recently, I served as CEO of Offshore Sensing in Norway, developer of the Sailbuoy autonomous surface vehicle. Previously, I was Marine Director at Ocean Infinity, following senior operational and commercial roles across the offshore and maritime industries.My career has increasingly brought together two areas I particularly enjoy: practical marine operations and emerging maritime technology...

Experience

Offshore Sensing AS
Chief Executive Officer
June 2024 - September 2026 (2 years 4 months)

• Spearheaded the commercial and operational growth of Offshore Sensing, enhancing its position in low-emission ocean data collection.
• Expanded market focus to include defence, offshore energy, and environmental monitoring, diversifying revenue streams.
• Developed innovative business models such as Maritime-as-a-Service (MaaS) and Data-as-a-Service (DaaS) to meet customer needs.

Ocean Infinity
Marine Director
July 2023 - June 2024 (1 year)
Singapore

• Led the establishment of marine operations for Ocean Infinity’s autonomous fleet from Singapore.
• Developed operational frameworks for safe and scalable deployment of autonomous vessels.

• Collaborated with the Maritime and Port Authority of Singapore to navigate regulatory requirements.
• Fostered cross-functional teamwork to enhance fleet readiness and support innovative marine robotics.

1Mar Consult
Consulting Specialist
May 2022 - June 2024 (2 years 2 months)
Singapore

AOS Offshore
Commercial Manager
May 2022 - June 2023 (1 year 2 months)
Singapore

• Led the commercial development of technology-enabled offshore inspection services across Southeast Asia, integrating marine robotics and digital inspection.
• Secured classification society certification for robotic vessel inspections, enabling industry-approved remote solutions.
• Developed a new commercial business model for robotic inspection services, transitioning from technical capability to marketable offerings.

Alfa Laval
Global Sales Power & Offshore
April 2019 - May 2022 (3 years 2 months)
Singapore

Led global sales development for Alfa Laval’s Power & Offshore business, delivering purpose-engineered power and energy solutions for offshore, floating production and marine applications.
• Helped transform the sales organisation from a predominantly reactive approach to a data-driven, strategically proactive commercial model, improving market visibility and opportunity identification.
• Expanded the customer base into new markets by more than 100% during the first year, originating new opportunities and developing relationships across the global offshore and energy sectors.
• Increased the sales pipeline with existing customers by more than 25% through deeper account penetration, cross-selling and identification of new applications.

• Developed and strengthened relationships with key customers, EPCs and industry stakeholders, expanding Alfa Laval's engagement across existing and new accounts.
• Combined market intelligence, customer insight and technical understanding to identify opportunities for engineered solutions across offshore and floating production projects.
• Worked across international sales, engineering and product teams to develop commercially and technically appropriate solutions for complex offshore projects

1MAREX PTE LTD.
Co-Founder & CEO
September 2017 - January 2020 (2 years 5 months)

Oslo Area, Norway

2014 Clarkson, the world’s largest shipbroker, announced the sector’s biggest takeover deal, a £281.2m acquisition of Norwegian rival RS Platou .

Boeing - Sea Launch
1st Officer-Safety Officer
September 1999 - December 2001 (2 years 4 months)
Greater Los Angeles Area

Responsible for the Safety and Security for marine and project crew on-board Sea Launch Commander.

Sea Launch is a multinational spacecraft launch service that used a mobile maritime launch platform for equatorial launches of commercial payloads on specialized Zenit-3SL rockets through 2013.

By 2013, it had assembled and launched thirty-one rockets. All commercial payloads have been communications satellites intended for geostationary transfer orbit with such customers as EchoStar, DirecTV, XM Satellite Radio, PanAmSat, and Thuraya.

The launcher and its payload are assembled on a purpose-built ship Sea Launch Commander in Long Beach, California, USA. It is then positioned on top of the self-propelled platform Ocean Odyssey and moved to the equatorial Pacific Ocean for launch, with the Sea Launch Commander serving as command center. The sea-based launch system means the rockets can be fired from the optimum position on Earth's surface, considerably increasing payload capacity and reducing launch costs[1] compared to land-based systems.

Solstad Offshore
Deck Officer Navigation
December 1993 - September 1999 (5 years 10 months)
Various Offshore Vessels (AHTS,PSV & OCV)
