Piyush Choudhary

Backend Developer | Ex- Cognizant Ex- Trippersway private limited
Mumbai, Maharashtra, India

Summary

Welcome to my LinkedIn profile! I'm Piyush, a highly motivated and results-driven professional with a passion for technology and innovation.

Education: I hold a Bachelor of Technology (B.Tech.) degree in Computer Science and Engineering, which has provided me with a strong foundation in computer science principles, programming languages, data structures, algorithms, and problem-solving skills.

Professional Experience: Throughout my career, I've had the privilege to work on a range of exciting projects. My experience spans areas such as Backend development, Database design, and API integration.

Let's Connect: Whether you're interested in discussing opportunities, sharing insights, I'd love to connect with you. Feel free to send me a connection request, and let's explore how we can collaborate and learn from each other.

I look forward to connecting and engaging with you in meaningful ways.

Experience

FatakPay
Backend Developer
April 2024 - Present (2 years 8 months)
Mumbai, Maharashtra, India

Trippersway
Backend Developer
May 2022 - April 2024 (2 years)
Jaipur, Rajasthan, India

- Developed backend and integrated Third Party APIs.

- Implemented RESTful APIs and ensured User Authorization.
- Designed and implemented database tables using Django Models.
- Conducted thorough testing of APIs developed, ensuring reliability and stability.
- Actively engaged in code reviews and demonstrated strong problem-solving skills.
- Collaborated with cross-functional teams and clients to gather requirements and provide updates.

Cognizant
Programming Analyst
September 2021 - March 2022 (7 months)
Bengaluru, Karnataka, India

- Enhanced RAM vehicle dashboards through innovative contributions to product quality.
- Utilized IBM's Rational Rhapsody for virtual simulations of dashboard functionalities.
- Conducted pre-development testing, identifying and resolving critical system errors for improved reliability.
- Created and documented precise test cases in Excel, establishing a structured testing framework.
- Collaborated cross-functionally to identify and prioritize issues, streamlining resolution processes.
- Engaged in collaborative development, fostering innovation, efficiency, and effective problem-solving.

Cognizant
Programmer Analyst Trainee
January 2021 - May 2021 (5 months)
Kolkata, West Bengal, India

As an Intern, I had the opportunity to gain practical experience and enhance my skills in Java, HTML5, CSS, JavaScript, and JDBC. This internship was a valuable part of my curriculum, allowing me to apply classroom knowledge to real-world projects while working on the development of an Interview Scheduling Management System.

Key Learning Experiences:

1. Java Development: During my internship, I actively engaged in Java programming, enhancing my proficiency in OOPS principles, data structures,

and algorithms. I developed various functionalities, including interview scheduling algorithms for several parts of the project, all while adhering to best coding practices.

2. Web Development: I expanded my web development skills by working with HTML5 and CSS to design a user-friendly and responsive front-end for the project. This experience allowed me to create an intuitive interface for users, ensuring a seamless experience.

3. JavaScript: I leveraged JavaScript to implement dynamic and interactive features within the system. This included client-side validation, and improved user interactivity to enhance the overall user experience.

4. Database Management (JDBC): One of the most crucial aspects of my internship was using Java Database Connectivity (JDBC) to establish a connection with the database. I designed and maintained the database schema, managed data operations, and ensured data integrity throughout the development process.

5. Project Development: The culmination of my internship was the successful creation of the Interview Scheduling Management System. This project aimed to streamline the interview scheduling process for organizations, providing them with a user-friendly platform to manage interview schedules and track progress efficiently.

This internship has equipped me with valuable technical skills, problem-solving abilities, and project management experience, making me well-prepared for future opportunities in the field of software development.

Education

BML Munjal University

Bachelor of Technology - BTech, Computer Science and Engineering · (August 2017 - June 2021)
